

## HEAVY DUTY IRON CASTER

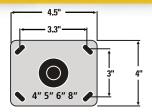

PLATE THICKNESS: .25" FORK THICKNESS: .25"

## **FEATURES**

- ☐ Cast Iron Wheel That Can
  Withstand High Heat Temperature
  Environments
  (I.E. Powder Coating Room)
- ☐ Four Swivel Design, Which Allows For Maximum Operation
- ☐ Rust Resistant Zinc Plated Bracket
- ☐ Ball Bearing For Rotating Ease And Flexibility
- ☐ Wear Resistant Cast Iron Wheel With Versatile Load Capacity

	Item No.	Single Caster Diameter	Surface Width	Wheel Material	Load Capacity	Bearing	Overall Height	Price
